

# MAGGIE VALLEY RIDES

## COPPERHEAD LOOP

Distance: 109 miles

Road type: twisty, scenic

Travel time: 4 hrs.

This is a short route but it's a lot of fun – plenty of curves and things to see along the way – since the route is a short ride it gives riders various options: once you reach the end turn around and ride it in the opposite direction – another option is visiting “*The Cradle of Forestry*” on US 276 and/ or the “*Pisgah Astronomical Research Institute*” on US 215.

### Points of interest:

- Sliding Rock
- Looking Glass Falls
- Sunburst Falls
- Lake Logan
